Choose your *Style*

Comelit®
GROUP S.P.A.

Comelit respects your style, and that is why it offers you Style - the

new telephone which you can personalise according to your taste

Just like your style: and installation requirements. Numerous functions and
unique and incomparable. various cabling possibilities make

Style a versatile and reliable piece of apparatus. In the Elegance

version, you can enrich its design by choosing the cover colour most

suited to your surroundings, making it the ideal

completion item for furnishing stylish or

bright and cheerful rooms.

Style

Elegance

Numerous functions for complete management of communications and with various cabling possibilities so that it can be inserted in any system. The Elegance version is available in black or white and the latter can be personalised with the special coloured covers. "The "Privacy" function, which allows the call to be temporarily excluded, is standard and can be obtained by changing the position of the selector on the telephone.

Basic

The simplest version of Style ensures all Comelit's reliability for the basic entry phone functions, and also has a pushbutton for additional services. Basic Style is only available in white, but as for the Elegance version, it can also be used with the special desk base. "The "Privacy" function is also standard on the Basic version and can be obtained by changing the position of the selector on the telephone.

Comelit

2602U **For Traditional cabling**
Universal telephone compatible with most of the telephones produced by the major manufacturers. Ideal in door entry phone system replacements and repairs. Call volume adjustment and privacy. It has a door open pushbutton and supplementary pushbutton for additional services with independent common: up to 8 pushbuttons of which 4 supplementary LEDs can be added; volume adjustment for both the loudspeaker and microphone; can be used both for systems with positive or negative common; can replace telephones with condenser microphone and carbon capsule; has electronic call or mechanical call by means of buzzer. With this model, the cover can be replaced.

2602BU **For Traditional cabling**
Like 2602U, but black in colour.

2602E **For Traditional cabling**
Telephone with electronic call, call volume adjustment, privacy, secrecy of speech, door open pushbutton and supplementary pushbutton for additional services with independent common; up to 8 pushbuttons of which 4 supplementary LEDs can be added. With this model, the cover can be replaced.

2602BE **For Traditional cabling**
Like 2602E, but black in colour.

2606 **For Digital Comelbus cabling**
Telephone with electronic call, call volume adjustment, privacy, and secrecy of speech. Fitted with door open pushbutton, switchboard call, free (C/N.O.) and with signalling LEDs for various functions. Allows management of the floor door call and call repetition.
3 free inputs available as standard to send messages to the switchboard (technical and panic alarms and other functions), floor door call, doctor function, secondary switchboard call and call pushbutton input from secondary entrance. Has jumper and programming connector. Different call tones for the main entrance or switchboard calls, secondary entrance or switchboard and floor door calls. With this model, the cover can be replaced.

2610 **For Digital Simplebus cabling with privacy/doctor function and intercom service** (the intercom service is only available if the telephone is used in the Bravokit kit). Telephone with electronic call, call volume adjustment, secrecy of speech, privacy. Fitted as standard with door open pushbuttons, switchboard call, actuator control art. 1256 and LED for various functions (engaged and doctor function). Up to 6 supplementary pushbuttons can be added, of which a maximum of 3 LEDs. Allows management of the floor door call and call repetition. Complete with dip-switch with 8 positions for selection of the desired user code. Telephone to be used in mixed audio/video Simplebus 1, Simplebus 2 systems or in the Bravokit kit. If used in the Bravokit, the telephone has the intercom function. Fitted with branch terminal art. 1214/2C. With this model, the cover can be replaced.

2618 **For Digital Simplebus cabling with intercom function**
Telephone with electronic call, call volume adjustment, privacy, secrecy of speech. Fitted as standard with door open pushbuttons and a further 8 pushbuttons preset for the intercom function or various uses (2 of the pushbuttons can be freed for C/N.O. contact). Fitted with an LED for various signals (engaged, doctor function). To programme the intercom code or another function, it is necessary to use the hand-held programmer art. 1251/A. Complete with dip-switch with 8 positions for selection of the desired user code. Allows management of the floor door call and call repetition. Telephone to be used, in combination with interface art. 4897 supplied by transformer art. 1195, in audio or mixed audio/video systems (Simplebus 1 and Simplebus 2) when the intercom function is needed. When used in mixed audio/video systems, the telephone requires terminal art. 1214/2C, to be purchased separately. With this model, the cover can be replaced.

2628 **For Digital Simplebus cabling with mixed systems**
Telephone with electronic call, call volume adjustment, privacy, secrecy of speech. Fitted with door open pushbutton, switchboard call, actuator control art. 1256 and free (C/N.O.). Up to 6 supplementary pushbuttons can be added, of which a maximum of 3 LEDs. Allows management of the floor door call and call repetition. Complete with dip-switch with 8 positions for selection of the desired user code. Telephone to be used in mixed audio/video systems (Simplebus 1 and Simplebus 2). Fitted with terminal 1214/2C. With this model, the cover can be replaced.

2628B **For Digital Simplebus cabling with mixed systems**
Like 2628, but black in colour.

2602 **For Traditional cabling**
